

**Alert Center on CLEAR**

# Reduce your risk exposure, expedite monitoring, and speed up your investigation

Monitoring your entire population of clients and customers can be extremely time consuming, and uncovering impactful changes is an increasingly important part of managing risk.

**The problems with current methods**

Traditional methods for monitoring your customers, vendors, and suppliers are fraught with many issues.

 <p><b>Time consuming and inefficient</b></p>	 <p><b>Prone to human error</b></p>	 <p><b>Difficult to collaborate and share information across teams</b></p>	 <p><b>Repetitive processes</b></p>

**Finding a better way with Alert Center on CLEAR**

The new capabilities of Alert Center on Thomson Reuters® CLEAR help you and your team identify and manage critical alerts, with features and benefits that include the ability to:

	<p>Immediately know when new addresses, phone numbers, death records, assets, or adverse filings are linked to your subjects of interest within a comprehensive dashboard</p>		<p>Gain insights with a complete view of alerts and alert analytics</p>
	<p>Better communicate alert details and findings during investigations using enhanced collaboration tools</p>		<p>Reduce manual efforts and potential for duplicate work through the new Review Status featuredashboard</p>

**ALERT CENTER**

Overall, the new innovative capabilities of Alert Center on CLEAR can save you and your team time and resources, allowing them and you to focus your investigative efforts on other top priorities.
