

HOW CAN YOUR LAW DEPARTMENT BENEFIT FROM THOMSON REUTERS LEGAL TRACKER E-BILLING AND MATTER MANAGEMENT?

Whether your company has hundreds of in-house lawyers or just one lawyer, your answers to a few simple questions will help you determine if you should take a closer look at Thomson Reuters Legal Tracker™ (formerly Serengeti Tracker™).

DO YOU TRACK OUTSIDE LEGAL WORK WITH PAPER, SPREADSHEETS, OR INTERNAL SOFTWARE AND DATABASES?	Law departments often waste time dealing with paper bills, budgets, status updates, and other documents. Legal Tracker solves this problem by capturing information and documents online and directly from the source — your law firms, members of your law department, or registered agents. You spend less time searching for and reentering data and always have current information at your fingertips.
DO YOU SPEND A SIGNIFICANT AMOUNT OF TIME ON COMPLIANCE AND AUDITING ISSUES?	Tracker is the only e-billing and matter management solution to receive full SOC 2 Type II and SOC 3 certification. This distinction not only validates security and internal controls, but it also supports your Sarbanes-Oxley and other compliance requirements. Also, with the auditing and reporting functionality, you can complete internal audits in a fraction of the time it takes with manual processes.
CAN YOU QUICKLY IDENTIFY LEGAL PROJECTS THAT ARE OFF TRACK, OVER BUDGET, OR DEVELOPING SIGNIFICANT EXPOSURE?	Most in-house counsel don't have the time or tools to continuously review all of their legal work. Tracker provides automatic dashboard alerts and reports that help you catch problems early so you can quickly address them.
IS YOUR REVIEW OF LEGAL BILLS EFFICIENT AND EFFECTIVE?	The process of routing and reviewing stacks of paper bills can result in wasted time and missed opportunities for bill reduction. Tracker manages the entire invoice review process: automatically routing bills to reviewers, flagging guideline violations, presenting budget comparisons, and capturing adjustments and comments. Once a bill is approved, Tracker can automatically deliver it to your accounts payable system for payment.

HOW CAN YOUR LAW DEPARTMENT BENEFIT FROM THOMSON REUTERS LEGAL TRACKER E-BILLING AND MATTER MANAGEMENT?

You can benchmark against the aggregated data of billions of dollars of billings from 42,000 law firms in 192 countries.
WOULD YOU BENEFIT FROM ON-DEMAND VISIBILITY INTO THE EFFECTIVENESS OF YOUR FIRM PORTFOLIO?	Review the performance results of each firm with easy-to-understand, side-by-side comparison graphics by size or industry type. Assign work to the firms that most effectively meet your needs and demonstrate the best value to your organization.
ARE YOU EFFECTIVELY NEGOTIATING FIRM RATES?	Compare and contrast rate proposals in one place, including detail about impact of changes, discounts provided, and comparisons to similarly situated firms and industry rate benchmarks.
CAN YOU EFFICIENTLY CREATE A LAW DEPARTMENT BUDGET AND TRACK SPENDING AGAINST IT?	Tracker streamlines your budgeting by providing an online workspace that includes your estimates, law firm budgets, historic spending, and accruals. Throughout the year, it compares spending against the budget and helps you prepare accurate reforecasts if necessary.
