Understanding Litigation Analytics

Litigation Analytics on Thomson Reuters Westlaw Edge™ delivers relevant insights and trends to help you build the most effective litigation strategy. Litigation Analytics will help you better set and manage client expectations in terms of cost, timing, and likely outcome by understanding the most probably results.

LITIGATION ANALYTICS IS AVAILABLE FOR:

- **Judges**: find insights that can help you understand your assigned judge, including familiarity with a subject matter, record on appeal, approach to expert witness testimony, and authority they tend to site to.
- **Courts**: discover which court is best suited to file your claim in.
- **Firms**: get greater insight on the tendencies of other law firms and benchmark your firm against others.
- **Attorneys**: analyze attorneys to determine best candidates for outside counsel, strengthen your case strategy, manage early case assessment, and determine motion strategy.
- **Case Types**: see how similar matters were resolved, the time an effort involved, plus gain a better understanding of the parties involved in your case.

Explore Litigation Analytics to Help Craft Your Litigation Strategy

The following is a list of tabs that may appear as you use Litigation Analytics:

- **Overview** provides a general overview of the key analytics on your judge, court, firm, attorney, or case type. Under each chart, click the **Explore** button to examine more detailed analytics for that category. You can also click on the respective tabs in the analytics profile.

- **Experience** gives you a better understanding of the experience and caseload of attorneys and judges in addition to those trends across courts, law firms, and case types.

- **Outcomes** helps you better advise your client on likely outcomes and length of time to resolution.

- **Motions** allows you to assess the potential success of filing certain motions before a particular judge or court. This tab includes a graphical view of the data and a relevant list of motions, orders, and dockets.

- **Precedent** analytics is powered by the West Key Number System® and allows you to quickly narrow in by topic to easily find what citations, other judges, and jurisdictions your particular judge relies upon when drafting their opinions.

- **Expert Challenges** helps you make more informed decisions around which experts to use with insight into how often your judge has admitted or excluded expert testimony, and whether your expert has appeared before your judge in previous matters.

- **Appeals** allows you to better understand how your assigned judge’s rulings have fared on appeal and the resolution of appeals brought before a judge and an overall court.

- **References** includes a list of all content associated with a judge or attorney.
TIPS FOR USING LITIGATION ANALYTICS

1) Use Filters to Narrow Your Results
   For each type of analytics, you can use the Filters on the left to restrict data. Additionally, hovering over data in the chart will display a Filter button to view the analytics pertaining to that particular data point. The cart and result list will update automatically with each filter you apply or remove.

2) Change Views
   You can toggle between Chart View and Table View using the buttons in the top right of the visualization.

3) Results List
   In the result list, you will see a motion type, outcome, case name, or docket summary. Click the link to view the full text of the document.
   
   **NOTE:** If the document is not available to view within your subscription, Westlaw Edge will display a warning message. If you choose to view the document’s full text, an out-of-plan charge will accrue. Contact your dedicated Westlaw Edge support team if you have questions about what is included in your subscription.

4) Delivery
   Click the Delivery button to download, email, print the Analytics, Result List, or both.
