

How Modified Payment Schedule Works

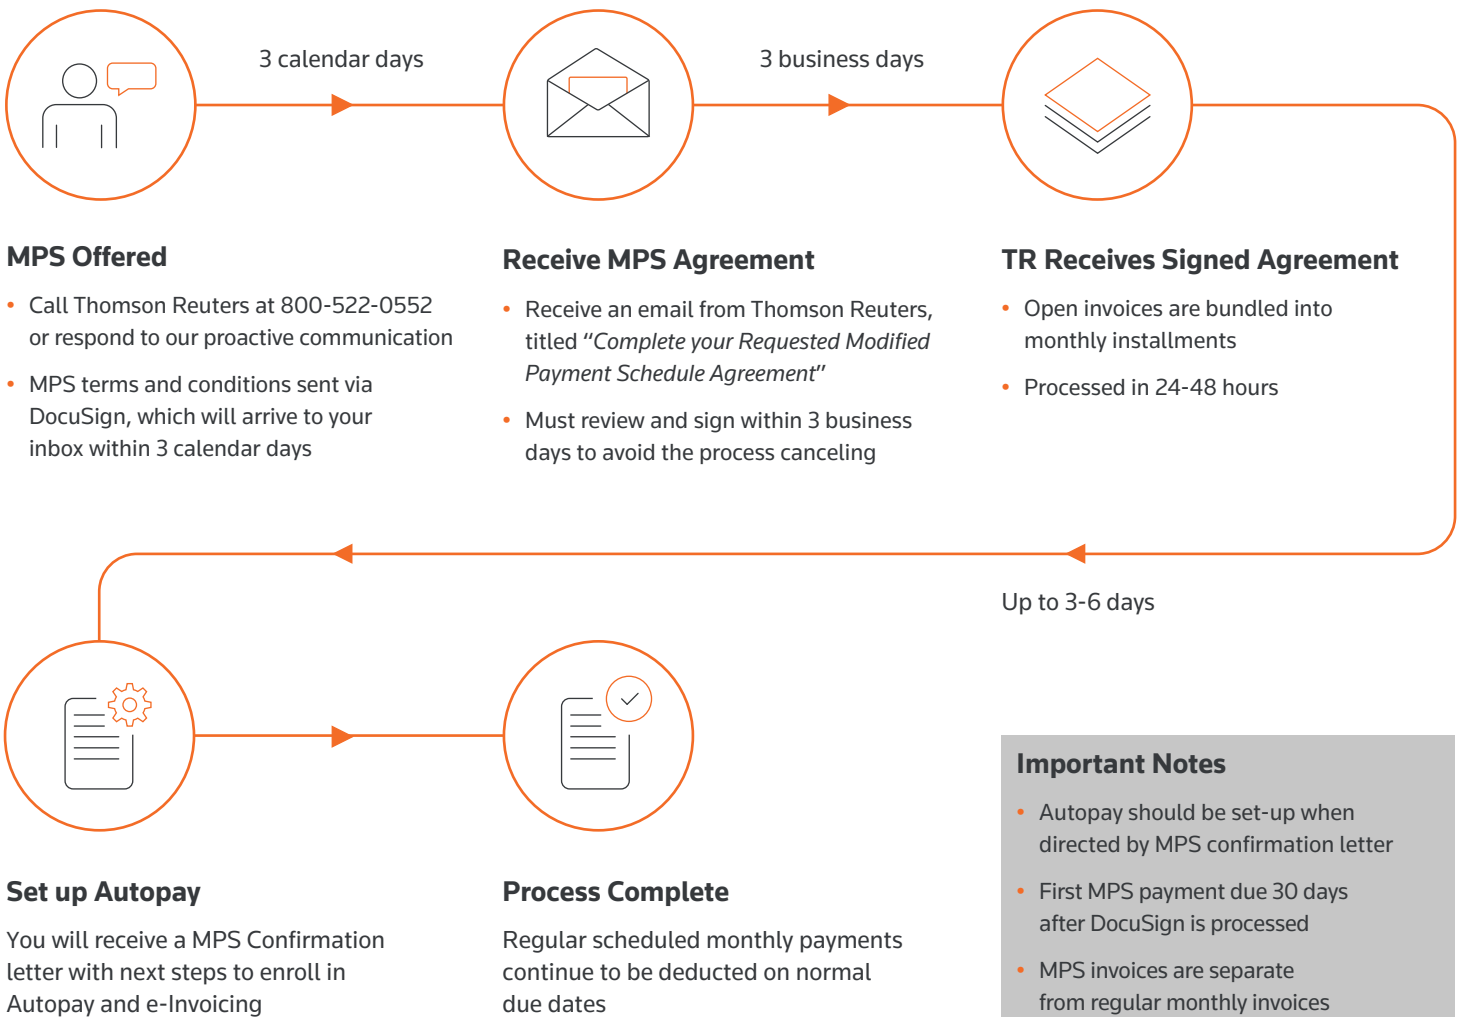

What is a Modified Payment Schedule (MPS)?

A Modified Payment Schedule (MPS) allows you to take the sum of your past due balance and spread it out over an agreed upon amount of time, not exceeding 6 months. This option will run concurrently with your monthly payments.

Benefits Include:

- Organized and flexible payment options during a financially challenging time.
- No penalties. No interest. No hidden fees.
- Stop any collections efforts and continue to enjoy the value of your Thomson Reuters products.

How the Process Works:*

*Indicates current process and is subject to change.
