

A woman with blonde hair and black-rimmed glasses is sitting at a desk in an office. She is holding a black mobile phone to her ear with her right hand and pointing her left index finger towards the bottom right. She is wearing a grey blazer over a dark grey top. The background is a blurred office environment with blue lighting.

Risk & Fraud Solutions

An Introduction for
Insurance Businesses

Who we are

At Thomson Reuters, we aim to help business and government gain the clarity they need to act when it matters most.

Our trusted expertise, powerful technology, advanced AI, and industry-leading insights help corporate and government professionals know today and navigate tomorrow.

Using innovative, premium and secure technology, built from a foundation of trusted content and domain expertise, we deliver transformative products and rigorously tested tools. We enable those working within both corporate and government to provide a superior service to their stakeholders today, and in the future.

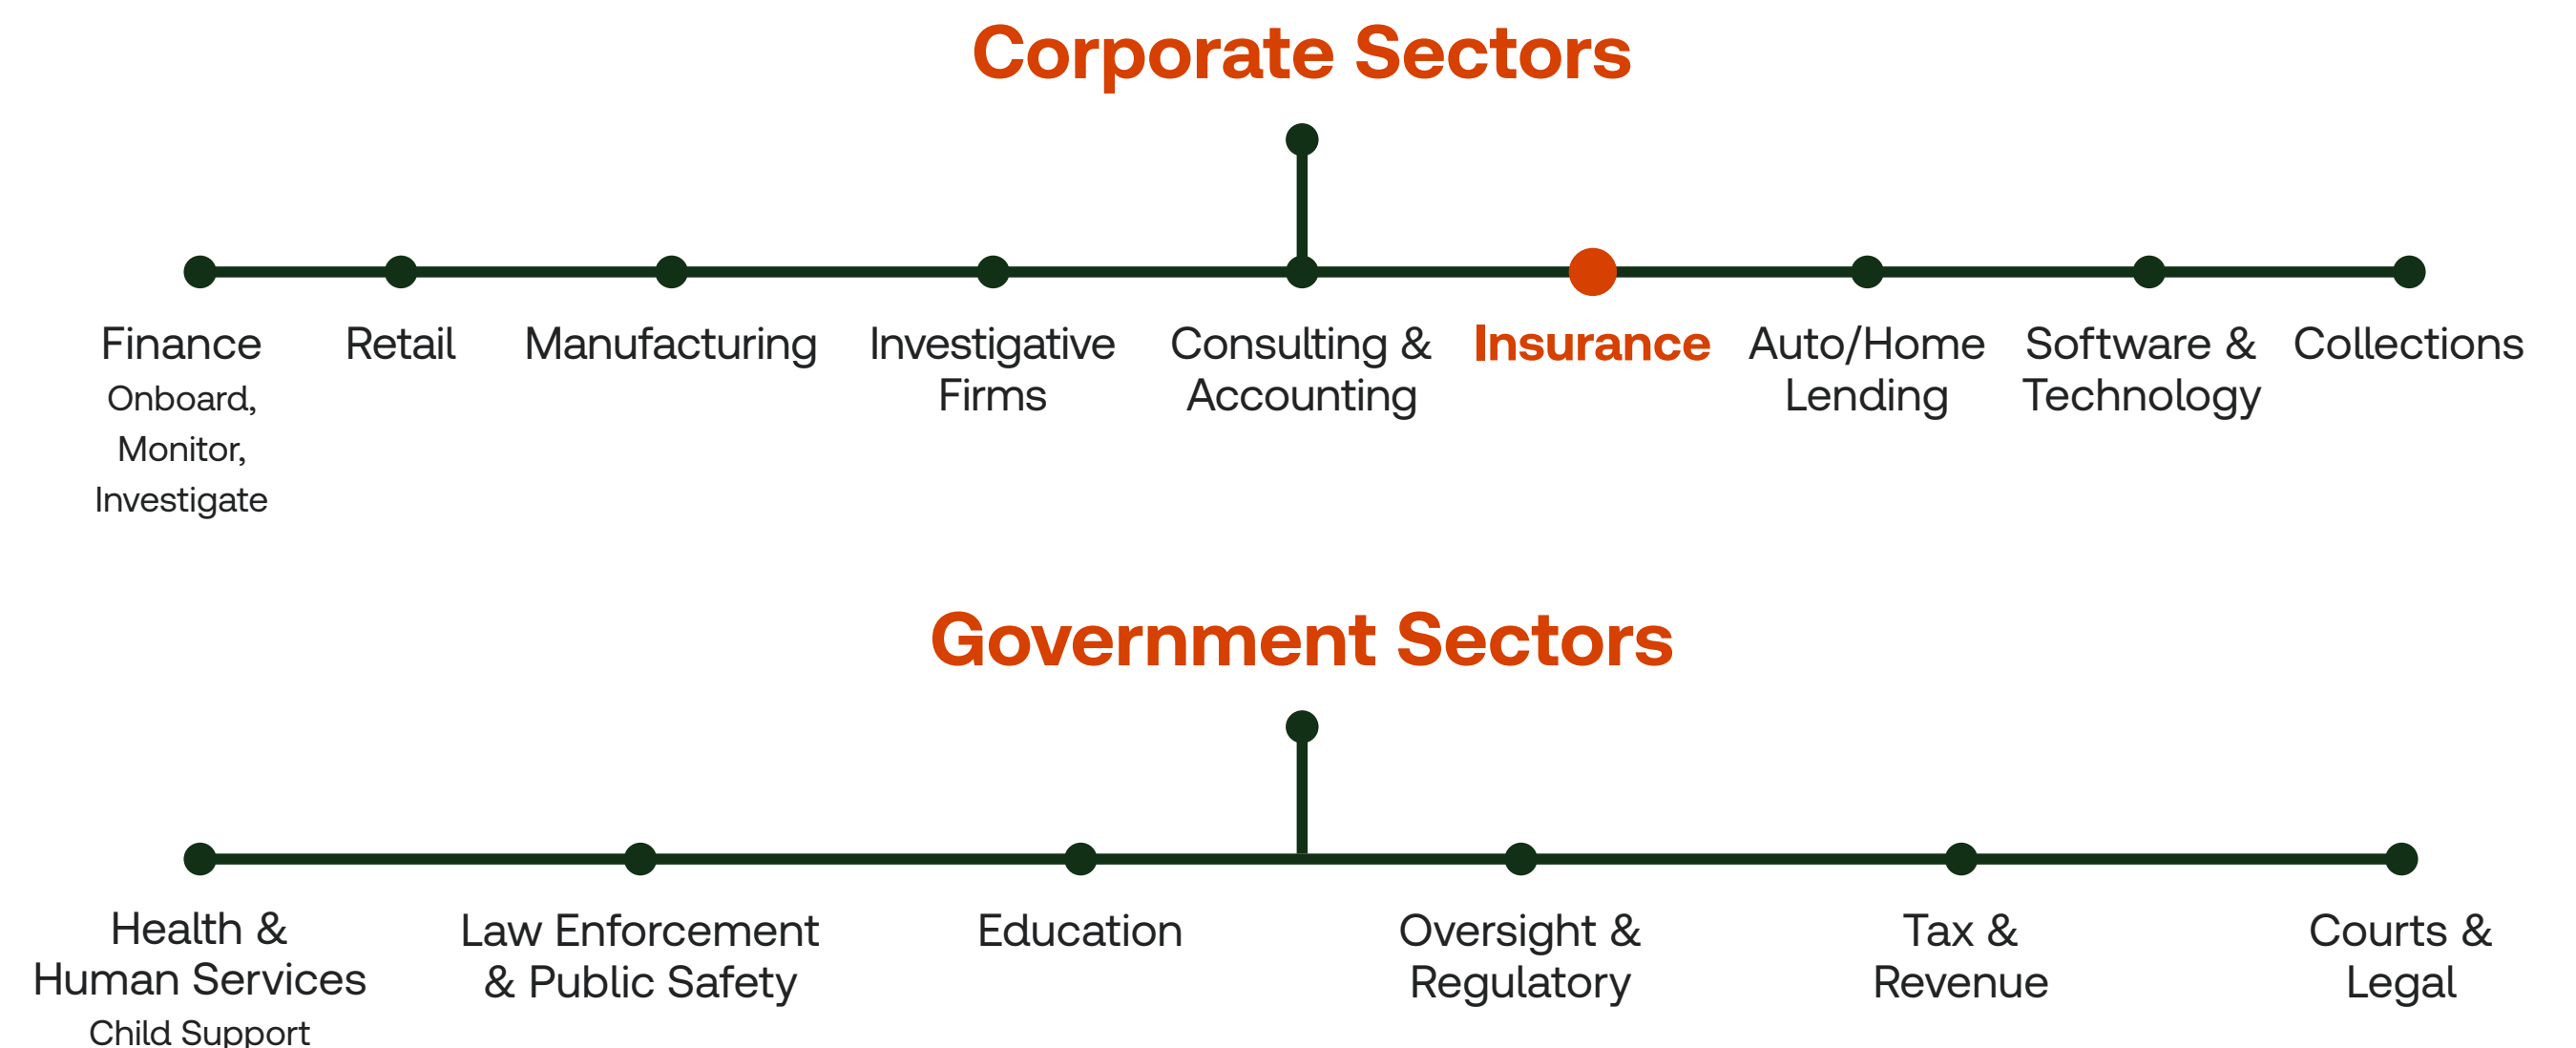

Know more risk

Thomson Reuters Risk & Fraud Solutions bring together unparalleled content and related expertise with the industry-leading breadth and depth of its data, and AI-powered analytics, to help solve some of the most pressing challenges throughout your entire risk mitigation and fraud prevention and investigation workflows.

We understand that when your choices really matter, how you make them matters more. We know that now more than ever, organizations and agencies need a dynamic approach to managing risk, evaluating cases and responding to unexpected threats.

Because, when you know more about the risk, there are no more surprises.

How Risk & Fraud Solutions operate within industry sectors

We understand the complexity

As the rise in both digital fraud and constantly changing regulations has made the business of insurance more complicated, we understand that corporate and business teams need seamless processes that help create more effective investigations and a frictionless claims experience.

We know how important it is to be able to reduce the risk of human error, avoiding compliance issues while also providing faster onboarding, detection and investigative services.

We help you see through a complex landscape •

Our innovative, premium and secure technology, built from a foundation of trusted content and domain expertise, helps corporate insurance teams see clearly through a complex landscape, to detect and investigate fraudulent claims, locate beneficiaries and complete filings successfully.

Our technology solutions help businesses gather evidence faster enabling them to investigate potential irregularities and misrepresentations more effectively and adjudicate claims with greater confidence.

Our trusted content and up-to-date information means we can cover a variety of complex cases from medical claims, to missing vehicles, arson and employment disputes. Our global reach and cross-jurisdictional databases allows businesses to effectively monitor vendors, brokers and dealers to help protect against fraud and comply with regulations such as FINRA.

Our expertise can support businesses with end-to-end insurance processes, from performing vendor onboarding more effectively, to speeding up investigations and locating more beneficiaries to payout on insurance filings, faster.

85% of surveyed customers
rated CLEAR's accuracy and
completeness of data as
'best in class'.
